

The Ergonomex

Ergonomic seating

Laboratory office space range

FEATURES

We understand the laboratory as well as the needs of researchers. Researchers nowadays may spend long hours at the desk for data analysis, a good chair is essential to keep them working effectively and comfortably. At LabMex, we not only provide laboratory furniture but also offer furniture designed for laboratory users in different working environments. The Ergonomex is designed for ergonomic seating for researchers in the office. It has a supportive backrest with seating height and angle adjustment, lumbar height support adjustment, armrest height and width adjustment, and seating depth adjustment. It is the perfect seating for those who need long-term seating.

Materials meets BS7176:2007 , BS 5852:2006 for resistance to ignition of upholstered furniture and BS EN 1335-1:2000 / 2:2009 & 3:2009 for office chair design and safety
